  theme: {
    extend: {
      colors: { brand: '#ec0853' },
      fontFamily: { display: ['inter', 'serif'] },

    },
  },
};
```

Run `npx designlang pack tailwindcss.com` for the full bundle (DTCG, shadcn, Figma vars, motion, anatomy, Storybook).

Usage

01 **Lead with the primary.**

It belongs on calls-to-action and one accent moment per screen. Not on body copy.

02 **Two type families, three weights.**

Display for headlines, body for paragraphs. Resist a third unless there is a real reason.

03 **Snap to the spacing scale.**

Padding, margin, and gap should land on the values in §05. One-off pixels accumulate into noise.

04 **Treat accessibility as a hard constraint.**

When a colour pair fails WCAG, fix the colour — not the contrast check.
